

**you need to  
PUMP  
it out...**

**for the love of scum...**

-  **All wastewater from homes and buildings should drain into sanitary sewers or septic systems for transport to a treatment plant.**
-  **Make rainwater work for you by redirecting your downspouts to your lawn or garden.**
-  **Never connect your washing machine to your basement sump pump or drain; soap and bleach can harm your garden and local waterways.**
